SUBJECT INDEX

Volume 119 (JANUARY-JUNE, 2001)

- Abbreviations: See Language
- Abciximab, antithrombotic therapy, Jan. Suppl., 1S-370S
- Abdominal pain, lung mass in a smoker, 947
- Abnormalities, antithrombotic therapy, Jan. Suppl., 1S-370S
- asymptomatic right tracheobronchial mass on chest radiograph, 1582
- a 52-year-old woman with recurrent hemoptysis, 955
- focal congenital alveolar proteinosis associated with abnormal surfactant protein B messenger RNA, 645
- intralobar pulmonary sequestration, 990, 991
- lethal hemoptysis caused by biopsy injury of an abnormal bronchial artery, 1612
- lung mass in a smoker, 947
- safety of dextromethorphan in pregnancy, 466
- Abortion, cavity lung disease, 300
- Academics: See Faculty
- Acalculous cholecystitis: See Cholecystitis
- Accidents, home ventilator low-pressure alarms fail to detect accidental decannulation with pediatric tracheostomy tubes, 562
- sleep-disordered breathing in middle-aged adults predicts no significantly higher rates of traffic violations, 1623
- ACCP-SEEK board review question of the month, differing chest imaging patterns in three patients are caused by one microbe, 1253
- a 51-year-old man with a complicated medical history and abnormal chest radiographic finding, 1948
- a 60-year-old man with recurrent pneumonias, 1590
- ACE inhibitors: See Angiotensin-converting enzyme inhibitors
- Acetylcholine, coronary vasospasm in hypertrophic cardiomyopathy, 1289, 1290
- test, usefulness of accelerated exercise following mild hyperventilation for the induction of coronary artery spasm, 155
- Acid-fast bacilli, evaluation of polymerase chain reaction for detection of *Mycobacterium tuberculosis* in pleural fluid, 1737
- Acidosis, chronic respiratory, severe pectus excavatum associated with cor pulmonale and, in a young woman, 1957
- evaluating sodium bicarbonate controversy, 1622
- lactic, in status asthmaticus, 1599
- Acinetobacter, hospital-acquired infections, Feb. Suppl., 371S-430S
- Acquired immunodeficiency syndrome: See also HIV infections; -associated *Pneumocystis carinii* pneumonia, prognostic markers of short-term mortality in, 844
- resolution of pleural effusions, 1547
- risk factors for prophylaxis failure in patients receiving aerosol pentamidine for *Pneumocystis carinii* pneumonia prophylaxis, 1427
- Actinomycosis, utility of Wang needle aspiration in the diagnosis of, 1966
- Adenocarcinoma, combination chemotherapy in patients with malignant pleural effusions from non-small cell lung cancer: cisplatin, ifosfamide, and irinotecan with recombinant human granulocyte colony-stimulating factor support, 340
- surgical management of non-small cell lung cancer with synchronous brain metastases, 1469
- Adenopathy, hilar and peripheral, pharyngitis and splenomegaly in a 29-year-old man with acute hypoxic respiratory failure, 1586
- Adenosine deaminase, evaluation of polymerase chain reaction for detection of *Mycobacterium tuberculosis* in pleural fluid, 1737
- Adenosine monophosphate, evaluation of salmeterol or montelukast as second-line therapy for asthma not controlled with inhaled corticosteroids, 1021
- Adenosine 5'-monophosphate, regular inhaled salbutamol: effect on airway responsiveness to methacholine and, tolerance to bronchoprotection, 370
- Adenovirus, gene therapy for pulmonary diseases, 613
- infection, role of nuclear factor- κ B activation in airway inflammation following COPD and, 1294
- ADHD: See Attention deficit hyperactivity disorder
- Adherence: See Patient compliance
- Adhesion molecules, increased endothelial injury in septic patients with coronary artery disease, 874
- Adolescence, sleep-related breathing disorders in adolescents aged 12 to 16 years: clinical and polygraphic findings, 1393
- Adrenal insufficiency in high-risk surgical ICU patients, 889
- Adrenergic α_1 -receptors, protecting the myocardium from ischemic injury: a critical role for α_1 -adrenoreceptors? 1242
- Adrenergic β -agonists, inhaled, deleterious effects of: short-acting and long-acting agents differ, 1297
- lactic acidosis in status asthmaticus, 1599
- status asthmaticus in children: a review, 1913
- use, utility of peak flow, symptom scores, and, as outcome measures in asthma clinical research, 1027
- Adrenergic β_2 -agonists, evaluation of salmeterol or montelukast as second-line therapy for asthma not controlled with inhaled corticosteroids, 1021
- impact of combined inhaled bronchodilator therapy in the treatment of COPD, 85
- in patients with COPD, treatment with a combination of formoterol and ipratropium is more effective than a combination of salbutamol and ipratropium, 1374
- inhaled, ambulatory use of, for the treatment of asthma in Quebec: a population-based utilization review, 1316
- regular inhaled salbutamol: effect on airway responsiveness to methacholine and adenosine 5'-monophosphate and tolerance to bronchoprotection, 370
- regularly scheduled inhaled bronchodilators and maintenance asthma therapy, 987, 988
- salmeterol and conventional asthma therapy, 986, 987
- short-acting and long-acting, placebo-controlled clinical trial of regular monotherapy with, in allergic asthmatic patients, 1306
- tolerance to the protective effect of salmeterol on allergen challenge can be partially restored by the withdrawal of salmeterol regular treatment, 1671
- Adrenoreceptors, α_1 -: See Adrenergic α_1 -receptors
- Advertising, considerations in the relationship between the American College of Chest Physicians and industry, 1257
- physician education and the pharmaceutical industry, 995
- time for introspection, 1255
- Aerosols: See also Nebulizers; ambulatory use of inhaled β_2 -agonists for the treatment of asthma in Quebec: a population-based utilization review, 1316
- deleterious effects of inhaled β -agonists: short-acting and long-acting agents differ, 1297
- dose-response relationship and reproducibility of the fall in exhaled nitric oxide after inhaled beclomethasone dipropionate therapy in asthma patients, 1322
- effect of size and disease on estimated deposition of drugs administered using jet nebulization in children with cystic fibrosis, 1123
- effectiveness and safety of salmeterol in nonspecialist practice settings, 714
- iloprost therapy could not replace long-term IV epoprostenol (prostacyclin) administration in severe pulmonary hypertension, 296
- impact of combined inhaled bronchodilator therapy in the treatment of COPD, 85
- reality-based medicine—the response, 992
- regular inhaled salbutamol: effect on airway responsiveness to methacholine and adenosine 5'-monophosphate and tolerance to bronchoprotection, 370
- regularly scheduled inhaled bronchodilators and maintenance asthma therapy, 987, 988
- risk factors for prophylaxis failure in patients receiving pentamidine for *Pneumocystis carinii* pneumonia prophylaxis, 1427
- underuse of inhaled steroid therapy in elderly patients with asthma, 720

- Africa, *Mycobacterium tuberculosis* disease in Somali immigrants in Minnesota, 176
- Age and aging, adrenal insufficiency in high-risk surgical ICU patients, 889
- aggressive diuresis for severe heart failure in the elderly, 807
- analysis of inspiratory flow shapes in patients with partial upper-airway obstruction during sleep, 37
- angiotensin-converting enzyme inhibitors, angiotensin-II receptor antagonists and pneumonia in elderly hypertensive patients with stroke, 660, 661
- antithrombotic therapy, Jan. Suppl., 1S-370S
- asthma and the risk of hospitalization in Canada: the role of socioeconomic and demographic factors, 708
- changes in forced vital capacity during methacholine-induced bronchoconstriction in elderly patients with asthma: bronchial hyperresponsiveness and aging, 1685
- community study of sleep-disordered breathing in middle-aged Chinese men in Hong Kong, 62
- elderly patients as candidates for bypass? 318
- empiric antibiotic therapy and mortality among Medicare pneumonia inpatients in 10 western states: 1993, 1995, and 1997, 1420
- extubation failure in a large pediatric ICU population, 897
- prognostic markers of short-term mortality in AIDS-associated *Pneumocystis carinii* pneumonia, 844
- relation between peripheral blood leukocyte counts and respiratory symptoms, atopy, lung function, and airway responsiveness in adults, 105
- seniors and systolic hypertension: an unanswered call to arms, 323
- study of consecutive autopsies in a medical ICU: a comparison of clinical cause of death and autopsy diagnosis, 530
- underuse of inhaled steroid therapy in elderly patients with asthma, 720
- value of a hospitalist service: efficient care for the aging population? 580
- video-assisted thoracoscopic sterilization for exacerbation of chronic empyema thoracis, 277
- Agriculture, free range chicken soup, 1976
- AIDS: See Acquired immunodeficiency syndrome
- Air embolism, iatrogenic paradoxical, in pulmonary hypertension, 1602
- seizure in a scuba diver, 285
- Air pollution, anti-inflammatory and lung function effects of montelukast in asthmatic volunteers exposed to sulfur dioxide, 402
- Airflow: See also Airway obstruction, *below*; Sleep apnea syndromes, obstructive; definitions in sleep-disordered breathing, 1287
- limitation, distribution of muscle mass and maximal exercise performance in patients with COPD, 93
- performance of nasal prongs in sleep studies: spectrum of flow-related events, 442
- potentially dangerous negative intrapleural pressures generated by ordinary pleural drainage systems, 511
- Airway: See also Airway obstruction, *below*; asymptomatic right tracheobronchial mass on chest radiograph, 1582
- complications, use of endoscopic argon plasma coagulation in, after solid organ transplantation, 1968
- function, body composition analysis and changes in, in obese adults after hypocaloric diet, 1409
- gene therapy for pulmonary diseases, 613
- geometry, methacholine-induced temporal changes in lung density and, by CT, 1878
- hyperresponsiveness and aging: changes in forced vital capacity during methacholine-induced bronchoconstriction in elderly patients with asthma, 1685
- hyperresponsiveness, bronchial, relationship between, and development of asthma in wheezy infants, 655
- hyperresponsiveness, placebo-controlled clinical trial of regular monotherapy with short-acting and long-acting β_2 -agonists in allergic asthmatic patients, 1306
- inflammation, cells of asthma, 1299
- inflammation, exhaled nitric oxide correlated with induced sputum findings in COPD, 1049
- inflammation, heterogeneity of, in persistent asthma: evidence of neutrophilic inflammation and increased sputum interleukin-8, 1329
- inflammation, role of nuclear factor- κ B activation in, following adenovirus infection and COPD, 1294
- invasion, extensive sampling improves preoperative bronchoscopic assessment of, by supracarinal esophageal cancer: a prospective study in 166 patients, 1652
- pharmacologic properties of brewery dust extracts *in vitro*, 1870
- prevalence of gastroesophageal reflux in children with tracheomalacia and laryngomalacia, 409
- pulmonary carcinoid: presentation, diagnosis and outcome in 142 cases in Israel and review of 640 cases from the literature, 1647
- response, late bronchial responses, allergen-induced, in mild asthmatics, 120
- responsiveness, association of, with asthma and persistent wheeze in a Chinese population, 691
- responsiveness, deleterious effects of inhaled β -agonists: short-acting and long-acting agents differ, 1297
- responsiveness, relation between peripheral blood leukocyte counts and respiratory symptoms, atopy, lung function, and, in adults, 105
- responsiveness, to methacholine and adenosine 5'-monophosphate and tolerance to bronchoprotection: regular inhaled salbutamol, effect on, 370
- successful bronchoscopic placement of tracheobronchial stents without fluoroscopy, 1910
- upper, obstruction, effects of levodopa on pulmonary function in Parkinson's disease, 387
- upper, resistance syndrome, breath-to-breath variability correlates with apnea-hypopnea index in obstructive sleep apnea, 451
- Airway challenge testing: See Bronchial provocation
- Airway obstruction: See also Pulmonary diseases, chronic obstructive; chronic, is it really useful to repeat outpatient pulmonary rehabilitation programs in patients with? A 2-year controlled study, 1696
- chronic, patients with and without, maximal expiratory flow patterns after single-lung transplantation in, 163
- costs of treating COPD in the United States, 344
- increased prevalence of gastroesophageal reflux symptoms in patients with COPD, 1043
- maximal inspiratory flow rates in patients with COPD, vol. 118:976; erratum, vol. 119:319
- nasal obstruction and sleep apnea, 1620
- neoplastic, endobronchial argon plasma coagulation for treatment of hemoptysis and, 781
- upper, partial, analysis of inspiratory flow shapes in patients with, during sleep, 37
- Albuterol, deleterious effects of inhaled β -agonists: short-acting and long-acting agents differ, 1297
- hydrofluoroalkane-salbutamol formulation, comparative *in vivo* lung delivery of, via metered-dose inhaler alone, with plastic spacer, or with cardboard tube, 1018
- impact of combined inhaled bronchodilator therapy in the treatment of COPD, 85
- in patients with COPD, treatment with a combination of formoterol and ipratropium is more effective than a combination of ipratropium and salbutamol, 1374
- optimizing bronchodilator therapy for COPD, 1628
- placebo-controlled clinical trial of regular monotherapy with short-acting and long-acting β_2 -agonists in allergic asthmatic patients, 1306
- regular inhaled salbutamol: effect on airway responsiveness to methacholine and adenosine 5'-monophosphate and tolerance to bronchoprotection, 370
- salmeterol and conventional asthma therapy, 986, 987
- Alkaloidal "crack" cocaine: See Cocaine
- Allergen challenge: See Bronchial provocation; Hypersensitivity
- Allergy: See Hypersensitivity
- Allergic bronchopulmonary aspergillosis: See Aspergillosis
- α -defensin: See at Defensin
- α_1 -adrenoreceptors: See Adrenergic α_1 -receptors
- α_1 -antitrypsin: See Antitrypsin

- α_1 -protease inhibitor deficiency: See Protease
- Alteplase, antithrombotic therapy, Jan. Suppl., 1S-370S
- Alveolar macrophages: See Macrophages
- Alveolar proteinosis, focal congenital: See Proteinosis
- Alveoli, pulmonary alveolar microlithiasis; patient with palpitations and bilateral pulmonary infiltrates, 1951
- Alveolitis, cryptogenic fibrosis, occupational distribution and geographic clustering of deaths certified, in England and Wales, 428
- Amantadine, influenza pneumonia in thoracic organ transplant recipients: what can we do to avoid it? 997
- Ambulatory care, costs of treating COPD in the United States, 344
- effectiveness of outpatient pulmonary rehabilitation in chronic lung disease, 1705
- is it really useful to repeat outpatient pulmonary rehabilitation programs in patients with chronic airway obstruction? A 2-year controlled study, 1696
- survey of the use of herbal agents among Philadelphia Veterans Affairs Medical Center pulmonary outpatients, 1981
- use of inhaled β_2 -agonists for the treatment of asthma in Quebec: a population-based utilization review, 1316
- why blame private practitioners? 1288

- impaired filling due to right ventricular pressure overload in primary pulmonary hypertension: noninvasive monitoring using MRI, 1761
- respiratory changes in aortic blood velocity as an indicator of fluid responsiveness in ventilated patients with septic shock, 867
- wall stress during leg-press exercise performed with a brief Valsalva maneuver, 150
- Ventricle, right, contractility, comparison of the effects of nitric oxide, nitroprusside, and nifedipine on hemodynamics and, in patients with chronic pulmonary hypertension, 128
- effect of dysfunction on left ventricular form and function, 1632
- hypertrophy, effect of a serotonin receptor antagonist on interleukin-6-induced pulmonary hypertension in rats, 554
- pressure overload, impaired left ventricular filling due to, in primary pulmonary hypertension: noninvasive monitoring using MRI, 1761
- ST-segment elevation in precordial leads: anterior or right ventricular myocardial infarction? 290
- Ventricular rate control, acute, in atrial fibrillation: IV combination of diltiazem and digoxin vs IV diltiazem alone, 502
- Vertebra, Dieulafoy's disease of the bronchus in association with a paravertebral neurilemoma, 292
- Veterans, survey of the use of herbal agents among Philadelphia Veterans Affairs Medical Center pulmonary outpatients, 1981
- Video-assisted thoracoscopy: See Thoracoscopy
- Viral infections, resolution of pleural effusions, 1547
- Vital capacity, forced, changes in, during methacholine-induced bronchoconstriction in elderly patients with asthma: bronchial hyperresponsiveness and aging, 1685
- optimizing bronchodilator therapy for COPD, 1628
- row-a-boat phenomenon: respiratory compensation in advanced Duchenne muscular dystrophy, 1836
- short-term effects of wood smoke exposure on the respiratory system among charcoal production workers, 1260
- Vocal cords, paradoxical movement, 1619
- von Recklinghausen disease complicated by pulmonary hypertension, 1606
- Wakefulness: See Sleepiness
- Wales: See Great Britain
- Walk tests: See Exercise
- Walking: See Exercise
- Wall stress: See Ventricle, left
- Wang needle aspiration, utility of, in the diagnosis of actinomycosis, 1966
- Warfarin, antithrombotic therapy, *Jan. Suppl.*, 1S-370S
- asymptomatic atrial fibrillation: problems of management, 628
- therapy, how safely and for how long can [it] be withheld in prosthetic heart valve patients hospitalized with major hemorrhage? 478
- Weaning from ventilators: See Ventilator weaning
- Web sites, ethics, 321
- Wegener's granulomatosis, responding to antituberculous drugs, 643
- Weight loss, body composition analysis and changes in airways function in obese adults after hypocaloric diet, 1409
- effect of, on the ECG of normotensive morbidly obese patients, 507
- Wheezing, persistent, association of airway responsiveness with asthma and, in a Chinese population, 691
- relationship between bronchial hyperresponsiveness and development of asthma in wheezy infants, 685
- short-term effects of wood smoke exposure on the respiratory system among charcoal production workers, 1260
- Wire: See Foreign bodies
- Wit and humor, chicken soup or Jewish medicine? 1295
- Women, analysis of inspiratory flow shapes in patients with partial upper-airway obstruction during sleep, 37
- antithrombotic therapy, *Jan. Suppl.*, 1S-370S
- asthma and the risk of hospitalization in Canada: the role of socioeconomic and demographic factors, 708
- cigarette smoking and the risk of pulmonary metastasis from breast cancer, 1635
- cigarette smoking, pulmonary metastases and breast carcinoma: coincidence or causality? 1627
- gender bias in the diagnosis of COPD, 1691
- gender moderates the effects of exercise therapy on health-related quality of life among COPD patients, 70
- influence of gender on rates of hospitalization, hospital course, and hypercapnia in high-risk patients admitted for asthma: a 10-year retrospective study at Yale-New Haven hospital, 115
- pulmonary carcinoid: presentation, diagnosis and outcome in 142 cases in Israel and review of 640 cases from the literature, 1647

Wood smoke: See Smoke

Work of breathing, device-specific imposed, efficacy of postoperative incentive spirometry is influenced by, 1858

World Health Organization, why blame private practitioners? 1288

Yale-New Haven Hospital: See Hospitalization

Zanamivir, influenza pneumonia in thoracic organ transplant recipients: what can we do to avoid it? 997

influenza: will new diagnostic tests and antiviral drugs make a difference? 1630

Ziehl-Neelsen stain, microbiology of pediatric primary pulmonary tuberculosis, 1434

ZstatFlu: See Influenza

The Clinical World Congress on Diseases of the Chest

CHEST 2001, brought to you by the American College of Chest Physicians, is the only medical meeting focusing on clinical chest and critical care medicine and cardiothoracic surgery. The educational programs are diverse in scope, topic, and delivery. Target sessions, designed for the clinician and the researcher, give you the unique opportunity to:

- Increase your medical knowledge
- Maximize the care you provide for your patients
- Improve your practice management
- Learn how research is making a difference in chest medicine
- Network with other health professionals

November 4-8

*Pennsylvania Convention Center
Philadelphia, Pennsylvania
Abstract Deadline: May 4, 2001*

800-343-2227 • 847-498-1400
